how to order

1 How to choose a huggle

Each huggle chair is made to suit the requirements of an individual client. Before placing an order it is essential that a professional assessment is carried out. To arrange a free, no obligation assessment please contact us on our **Customer Careline: 0800 0186440.**

2 Selecting colours

There are 5 colours to choose from (purple, lime, orange, royal and crimson). You have the option to select one colour for the seat, backrest and legrest and another for the sides. Please refer to the huggle fabric swatches before making a final selection.

3 How to order a huggle

Once the professional assessment has taken place you will be given a quote detailing the exact chair specification and will be advised how to place your order.

4 Delivery

Chair prices include delivery to UK mainland only. All chair accessories are subject to post and packaging if not ordered with a chair.

5 Prices

Prices are correct as of 1st September 2009 and are for one item unless a pair or other quantity is specified. All prices are subject to VAT unless personal exemption applies.

6 Conditions of Sale

Huggle chairs are only sold through trained, appointed CareFlex distributors, please refer to the distributor's conditions of sale. CareFlex's manufacturer warranty applies and, should a claim be necessary, it should be made to the supplying distributor.

7 Warranty

The frames of the huggle chairs are guaranteed for 5 years against defective materials or manufacture. All other components are guaranteed for twelve months. As the wooden sides are made from a natural material they are not guaranteed against colour change.
